

Can Standardized Test Be Used As The Only Way To Reduce Drop Out?

Presented to School Administrators

Table of **contents**

01

About the project

Standardised test is often used for admission.

02

Project goals

To determine relationship between test and dropouts.

03

Sneak peek

Our findings.

04

Conclusion

A summary.

05

Recommendations

What is our suggestion based on this analysis.

01

About the project

About the project

1. Use of standardized test for :
 - Admission process in college and university
 - Measures dropout rate of students
2. Number of dropout in students will affect university revenue

02

Project goals

Project Goal

- Determine standardized test is the only way for predicting and reducing the number of dropouts.

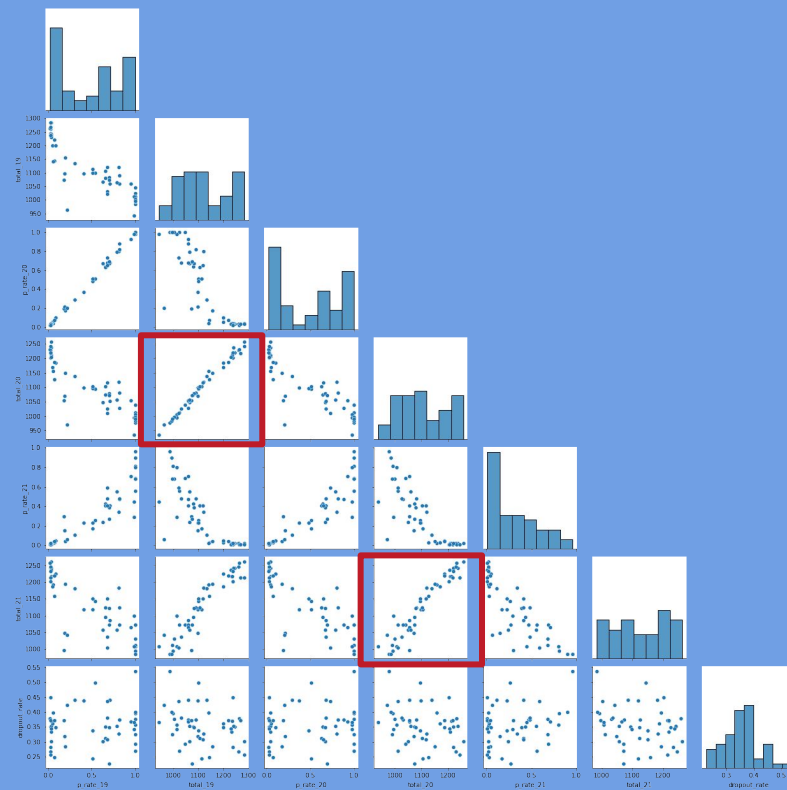

03

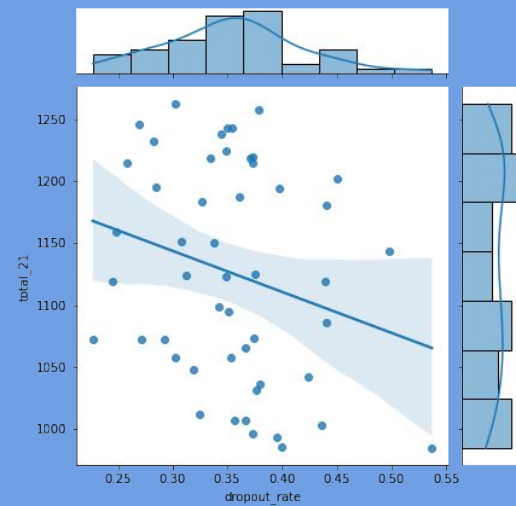

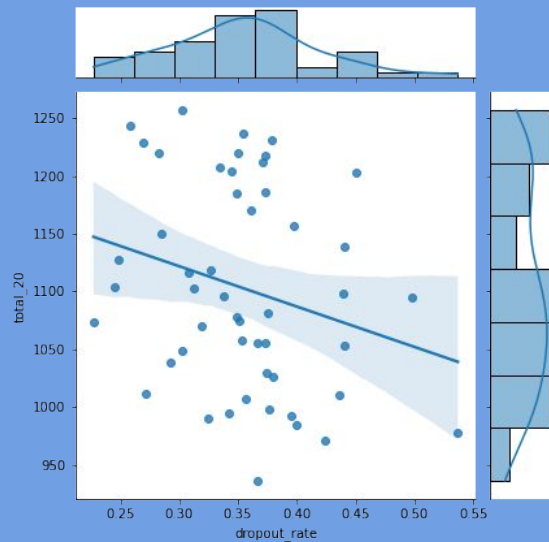

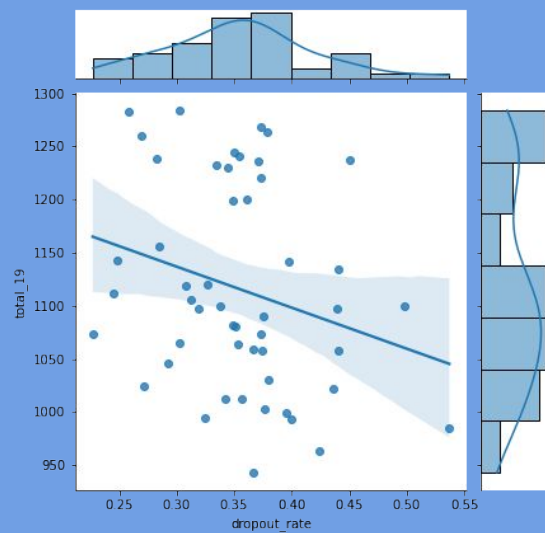

Sneak Peek

Sneak Peek

Sneak Peek

04

Conclusion

No relationship

Between participation rate and dropout

Slightly correlated

Between total score and dropout

Correlated

Between total score from year to year

05

Recommendations

Standardised Test

- Can only be 1 of the ways to reduce dropout
- It can be used together with other factors

Thanks!
